Co-funded by the COSME programme of the European Union

Hi Dear Traveller,

I am very passionate about exploring countries, meeting new people and discovering new opportunities. But at the same time, I am always looking for "something special" and want to combine my personal and professional life somehow. I've spent most of my time these past few years traveling a lot for work. And one day I realized that everything I gained during long years of travelling, being in business and having a lot of very interesting and well known contacts could bring some value not only for me. I needed to somehow tap into this network to bring value to others. This is how entrepreneurial travel VOYAGE was born.)

VOYAGE was created to introduce entrepreneurial, like-minded travel friends to these accomplished international contacts. With VOYAGE I want to take you to new places, but make you feel like a local. VOYAGE helps you arrange face to face meeting with well-known entrepreneurs while also getting involved in challenges, adventures and business development. When the two week trip is over, you will go home with lots of new ideas, new skills, connected contacts and a real result. Admission to VOYAGE is like a ticket to personal and professional freedom.

VOYAGE is the way to explore your business ideas, meet new friends, arrange meetings with successful business leaders, and have fun!  
I hope to meet you on my next VOYAGE.

Warmest wishes,  
Simona

PS You can contact me any time and I will be more than glad to answer all your questions
